

RIA MAP Certification Course Registration eRoster Updates

Dear MAP Trainers and Course Supporters,

This is a reminder that the eRoster for RIA MAP Certification class registration is available for roster submissions.

The MAP eRoster allows you to:

- Complete an online roster with student information (name, email address, etc.) along with MAP Trainer, co-Trainer, and Course Supporter details.
- Receive an email confirmation with a unique link to access your class registration.
- Edit class registration as often as you would like, including adding and removing students, until registration closes for that period.
- Authorize a Course Supporter from your agency to enroll and edit students on your behalf.

Beginning with the **July 2nd, 2026 class**, the eRoster will be the preferred submission method. We will be phasing out Excel roster submissions via email. If you have not yet used the new eRoster submission system, we encourage you to try it prior to the July 2nd class.

[View eRoster instructions, FAQs, and registration links here](#)

- MAP Trainers and Course Supporters must be logged into their MAP Mass account to open this instructions page and registration link.
- The 2026 RIA class schedule [has been updated and can be seen here](#). This revised schedule includes class date ranges. This allows MAP Trainers to begin a class within each date range and still submit a roster according to the established submission schedule.
- Please email CDDER@umassmed.edu if you have any questions.

Thank you,

Center for Developmental Disabilities Evaluation and Research (CDDER)
